Gen-Eye SL

The upgraded Gen-Eye SD® Series pipe inspection camera gives you all the features of a full size video inspection system in a compact, portable package.

The integral SD Card Reader records video or still images – it can store as much as 32 GB of data on one card. Keep a copy for your records and make copies for your customers.

In addition to the card reader, the Gen-Eye SD Command Module includes a large 10.4" LCD color monitor for crisp, clear pictures. And the full-size, waterproof keyboard permits nine pages of on-screen titling.

It also sports an on-screen distance counter, built-in voice-over microphone with switch, LED dimmer control, camera test port, and video and audio out connections for external recording devices.

All are safely contained in a heavy-duty, padded Pelican case weighing just 12 lbs. The fully adjustable docking arm lets you mount the monitor on a big capacity reel loaded with Gel-Rod® push-rod and a color self-leveling camera.

With this easily maneuverable, all-in-one package you're all set to trouble-shoot 3" to 10" lines with the standard reel, or inspect 2" to 4" lines with the mini-reel.
